17 December 1964

MEMORANDUM FOR: Chief, Technical Intelligence Division

SUBJECT: Purchase of AP/3

1. It is requested that an AP/3 be developed for TAB in lieu of an AP/2. The attached letter, submitted to [redacted] outlines modifications that should be incorporated into the present AP/2 which is here designated, for purposes of internal communication, as an AP/3. Although there is no mention in [redacted] letter of the Image Correlation capability that is being developed by [redacted] it is suggested that this too be considered in the development of the AP/3.

2. It is further recommended that the development of the AP/3 proceed on a high priority basis.

Chris wants to do this as development because S&S has told him he has not enough object class 900 money, which I don't believe is correct. Prefer not to have P&DS involved unless this is a legitimate dev. project & not just a procurement. JMK
